

Community Liaison Committee

As part of our commitment to keeping the local community informed of the environmental implications of our operations, ArcelorMittal Dofasco has established a Community Liaison Committee (CLC) in collaboration with the Ontario Ministry of the Environment and other Hamilton-area stakeholder organizations and community members.

The objectives of the CLC are to:

- 1)** Keep the Hamilton community informed of the status of the company's compliance with our recently-obtained Comprehensive (site-wide) Certificate of Approval (Air), and Altered Air Standard Approval and associated Orders;
- 2)** Keep the company informed of community concerns about the environmental impact of ArcelorMittal Dofasco's operations in Hamilton, Ontario; and
- 3)** Be a forum for the dissemination, review and exchange of information related to the environmental impact of our operations.

Regular meetings of the CLC are held at ArcelorMittal Dofasco's Main Office (1330 Burlington Street East, Hamilton). The first CLC meeting was held on December 8th, 2010. Find the meeting minutes and presentation [here](#).
